Editorial Review

From [Booklist](#)

The movies seem to have taken over Broadway of late, so don't be surprised to see names like Warner and Disney where Shubert used to be. The most successful recent movie-to-stage conversion is *Beauty and the Beast*, which through all manner of special effects transfers the transformations made on the screen by animators' pens to the live stage. The production sports several more songs than the cartoon feature did, and the lyrics of all the ditties used onstage appear here, along with a running synopsis of spoken dialogue and action, a gallery of the characters, and an account of how the production was created. A great many superior production photos, several designers' and costumers' drawings, and a handful of frames from the film essentially overwhelm the text, so this is one jolly browse of a book. *Ray Olson*

Users Review

From reader reviews:

Anthony Valdez:

The book Disney's Beauty and the Beast: A Celebration of the Broadway Musical can give more knowledge and information about everything you want. Why must we leave a very important thing like a book Disney's Beauty and the Beast: A Celebration of the Broadway Musical? A number of you have a different opinion about guide.
