Essentials of Development Economics By J. Edward Taylor, Travis J. Lybbert

Written to provide students with the critical tools used in today's development economics research and practice, *Essentials of Development Economics* represents an alternative approach to traditional textbooks on the subject. Compact and less expensive than other textbooks for undergraduate development economics courses, *Essentials of Development Economics* offers a broad overview of key topics and methods in the field. Its fourteen easy-to-read chapters introduce cutting-edge research and present best practices and state-of-the-art methods. Each chapter concludes with an embedded QR code that connects readers to ancillary audiovisual materials and supplemental readings on a website curated by the authors. By mastering the material in this book, students will have the conceptual grounding needed to move on to higher-level development economics courses.

Editorial Review

Review

"Creative, innovative, and flexible alternative to traditional development economics books . . . interesting and informative."

(R. M. Ramazani *CHOICE* 2015-09-01)

From the Inside Flap

"*Essentials of Development Economics* emphasizes the substantive over the technical, presenting a broad overview of key topics in language that is accessible to students who have a limited background in economics and mathematics. I have been looking for a book like this for years."

—Aashish Mehta, Associate Professor of Global and International Studies, University of California, Santa Barbara

"The strength of this book is that it takes old, recent, and new topics and combines them into a very concise reader that is informative and interesting. Other books are too big, too old, or too dry. This book is none of these. It's extremely student-friendly."

—Bruce Wydick, Professor of Economics, University of San Francisco, and author of *Games in Economic Development*

"A creative and flexible alternative to traditional textbooks... I plan to use this book in my own course."

—Edward Miguel, Oxfam Professor in Environmental and Resource Economics, University of California, Berkeley, and author of *Africa's Turn?*

About the Author

J. Edward Taylor is Professor of Agricultural and Resource Economics and Director of the Rural Economies of the Americas Program (REAP) at the University of California, Davis. He was coeditor of the *American Journal of Agricultural Economics* and has written extensively on the economy-wide impacts of agricultural and development policies. His publications include *Beyond Experiments in Development Economics: Local Economy-wide Impact Evaluation*; *Village Economies: The Design, Estimation, and Use of Villagewide Economic Models*; and *Worlds in Motion: Understanding International Migration at the End of the Millennium*. Listed in *Who's Who in Economics*, he has advised a number of foreign governments and international development agencies on matters related to economic development. His development economics work spans four continents.

Travis J. Lybbert is Associate Professor of Agricultural and Resource Economics at the University of California, Davis. He has published research in applied microeconomics on topics ranging from poverty dynamics, climate change, and childhood nutrition to technology adoption, intellectual property, and innovation policy. As a collaborator with students and other researchers, he has lived and worked on projects in India and many countries in sub-Saharan Africa, North Africa, and Europe.

Users Review

From reader reviews:

Linda Callaway:

Do you have favorite book? If you have, what is your favorite's book? Guide is very important thing for us to know everything in the world. Each e-book has different aim as well as goal; it means that book has different type. Some people really feel enjoy to spend their the perfect time to read a book. They can be reading whatever they have because their hobby will be reading a book. What about the person who don't like looking at a book? Sometime, person feel need book if they found difficult problem as well as exercise. Well, probably you will need this Essentials of Development Economics.

Holly Silva:

Ella Cook:

Reading a book being new life style in this calendar year; every people loves to read a book. When you read a book you can get a lots of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information in it. The information that you will get depend on what forms of book that you have read. In order to get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, such us novel, comics, and soon. The Essentials of Development Economics provide you with a new experience in studying a book.

Henry Heath:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's heart or real their pastime. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that examining is not important, boring along with can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Essentials of Development Economics can make you experience more interested to read.
