This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: ...boring in decaying logs. unique in the parental care exhibited by both males and females. and remarkable also for the sound produced both by adults and young; 11, the "tumblebug" beetle that flies at night and is often attracted to lamps. Photo: IV. A. Green. THE BORING PURPLE SEA-URCHIN, *STRONGYLOCENTROLUS LIVIDUS*, IN A ROCK POOL, BUNDORAN These Urchins bore cavities for themselves in the Carboniferous Limestone, and are sometimes permanently sealed up in their holes by the growth of a calcareous seaweed that covers the rocks. In some cases one side of the cavity is wholly composed of the calcareous Alga. The method by which the hole is bored is uncertain. but it is probably chemical. The subject requires re-investigation. had 2,425 annual rings when it was killed, and must have begun to live 525 years before the Christian era. "We have," wrote Professor W. R. Dudley, "deep in their annual rings, records which extend far beyond the beginnings of Anglo-Saxon peoples, beyond even the earliest struggles for liberty and democracy among the Greeks--records of forest conflagrations, of the vicissitudes of the seasons, of periods of drought and periods of abundant and favouring rains." In our conception of life we must not forget these sublime instances of its power to endure. XXI THE ROMANCE OF CHEMISTRY THE ROMANCE OF CHEMISTRY WHEN we first visit a great museum we are impressed by the multitude of different kinds of things: these thousands of startlingly different species of animals--each itself, and no other--these hundreds of different kinds of wood, shelf after shelf of minerals, an Aladdin's cave of precious stones, besides all manner of things artificially made, such as alloys and fabrics, drugs and preserved foods. Some of t...

Editorial Review

Users Review

From reader reviews:

Lisa Bates:

Information is provisions for people to get better life, information nowadays can get by anyone from everywhere. The information can be a expertise or any news even restricted. What people must be consider whenever those information which is in the former life are challenging to be find than now's taking seriously which one works to believe or which one often the resource are convinced. If you get the unstable resource then you get it as your main information you will have huge disadvantage for you. All those possibilities will not happen within you if you take The Outline of Science; A Plain Story Simply Told, Volume 3 as the daily resource information.

Dolores Crook:

The reason why? Because this The Outline of Science; A Plain Story Simply Told, Volume 3 is an unordinary book that the inside of the publication waiting for you to snap that but latter it will distress you with the secret it inside. Reading this book next to it was fantastic author who have write the book in such wonderful way makes the content within easier to understand, entertaining technique but still convey the meaning totally. So , it is good for you for not hesitating having this nowadays or you going to regret it. This amazing book will give you a lot of rewards than the other book have got such as help improving your talent and your critical thinking way. So , still want to hold up having that book? If I were being you I will go to the book store hurriedly.

Jennifer Trojanowski:

Your reading 6th sense will not betray you actually, why because this The Outline of Science; A Plain Story Simply Told, Volume 3 publication written by well-known writer whose to say well how to make book that could be understand by anyone who all read the book. Written inside good manner for you, leaking every ideas and composing skill only for eliminate your current hunger then you still question The Outline of Science; A Plain Story Simply Told, Volume 3 as good book not just by the cover but also from the content. This is one publication that can break don't judge book by its protect, so do you still needing one more sixth sense to pick this particular!? Oh come on your studying sixth sense already said so why you have to listening to an additional sixth sense.

Jerri Jackson:

This The Outline of Science; A Plain Story Simply Told, Volume 3 is great e-book for you because the

content which can be full of information for you who all always deal with world and get to make decision every minute. That book reveal it data accurately using great organize word or we can say no rambling sentences inside. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but challenging core information with wonderful delivering sentences. Having The Outline of Science; A Plain Story Simply Told, Volume 3 in your hand like getting the world in your arm, information in it is not ridiculous 1. We can say that no guide that offer you world with ten or fifteen moment right but this guide already do that. So , this is good reading book. Heya Mr. and Mrs. hectic do you still doubt in which?
