Beginning Java EE 6 Platform with GlassFish 3: From Novice to Professional (Expert's Voice in Java Technology) By Antonio Goncalves

Java Enterprise Edition (Java EE) continues to be one of the leading Java technologies and platforms from Oracle (previously Sun). *Beginning Java EE 6 Platform with GlassFish 3, Second Edition* is this first tutorial book on the final (RTM) version of the Java EE 6 Platform.

Step by step and easy to follow, this book describes many of the Java EE 6 specifications and reference implementations, and shows them in action using practical examples. This book uses the new version of GlassFish 3 to deploy and administer the code examples.

Written by an expert member of the Java EE 6 specification request and review board in the Java Community Process (JCP), this book contains the best information possible, from an expert's perspective on enterprise Java technologies.

What you'll learn

- Get started with the final version of the Java EE 6 Platform.
- Explore and use the new EJB 3.1 and JPA 2.0 APIs from entities to session beans to message-driven beans, and more.
- Discover the web tier development APIs including JSPs, JSTL, and Expression Language, and especially JSF 2.0 and Facelets.
- Uncover the new web services, RESTful services, and more available in Java EE 6.
- Create dynamic user interfaces for your enterprise and transactional Java applications.

Who this book is for

This book is for advanced Java programmers as well as Java EE 6 beginners. Architects will also find information about how to layer their Java EE applications.

Table of Contents

1. Java EE 6 at a Glance
2. Java Persistence
3. Object-Relational Mapping
4. Managing Persistent Objects
5. Callbacks and Listeners
6. Enterprise Java Beans
7. Session Beans and the Timer Service
8. Callbacks and Interceptors
9. Transactions and Security
10. JavaServer Faces
11. Pages and Components
12. Processing and Navigation
13. Sending Messages
14. SOAP Web Services
15. RESTful Web Services

Users Review

From reader reviews:

Carlo Young:

Why? Because this Beginning Java EE 6 Platform with GlassFish 3: From Novice to Professional (Expert's Voice in Java Technology) is an unordinary book that the inside of the publication waiting for you to snap that but latter it will shock you with the secret it inside. Reading this book next to it was fantastic author who all write the book in such amazing way makes the content interior easier to understand, entertaining means but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of rewards than the other book get such as help improving your ability and your critical thinking technique. So , still want to hold off having that book? If I ended up you I will go to the book store hurriedly.

Karen Bell:

Your reading sixth sense will not betray a person, why because this Beginning Java EE 6 Platform with GlassFish 3: From Novice to Professional (Expert's Voice in Java Technology) publication written by well-known writer who knows well how to make book which can be understand by anyone who also read the book. Written in good manner for you, still dripping wet every ideas and creating skill only for eliminate your own personal hunger then you still skepticism Beginning Java EE 6 Platform with GlassFish 3: From Novice to Professional (Expert's Voice in Java Technology) as good book not just by the cover but also by content. This is one guide that can break don't assess book by its cover, so do you still needing one more sixth sense to pick this specific!? Oh come on your reading through sixth sense already told you so why you have to listening to one more sixth sense.

Tracy Cluck:

You can find this Beginning Java EE 6 Platform with GlassFish 3: From Novice to Professional (Expert's Voice in Java Technology) by check out the bookstore or Mall. Just viewing or reviewing it might to be your solve challenge if you get difficulties for your knowledge. Kinds of this guide are various. Not only through written or printed but in addition can you enjoy this book by simply e-book. In the modern era such as now, you just looking by your mobile phone and searching what your problem. Right now, choose your own personal ways to get more information about your reserve. It is most important to arrange yourself to make

your knowledge are still change. Let's try to choose correct ways for you.

Richard Graham:

A lot of reserve has printed but it differs. You can get it by web on social media. You can choose the most beneficial book for you, science, witty, novel, or whatever by simply searching from it. It is referred to as of book *Beginning Java EE 6 Platform with GlassFish 3: From Novice to Professional (Expert's Voice in Java Technology)*. You can add your knowledge by it. Without making the printed book, it can add your knowledge and make you actually happier to read. It is most important that, you must aware about book. It can bring you from one place to other place.
