**The Parallel Curriculum: A Design to Develop Learner Potential and Challenge Advanced Learners** By Carol Ann Tomlinson, Sandra N. Kaplan, Joseph S. Renzulli, Jeanne H. Purcell, Jann H. Leppien, Deborah E. Burns, Cindy A. Strickland, Marcia B. Imbeau

*Engage students with a rich curriculum that strengthens their capacity as learners and thinkers!*

Every learner is somewhere on a path toward expertise in a content area. This resource promotes a model for developing high-quality curriculum that moves learners along the continuum toward expertise and provides sample units and rubrics to help implement differentiated curriculum. Teachers can use four curriculum parallels that incorporate Ascending Intellectual Demand to:

- Determine current student performance levels
- Appropriately challenge all students in each subject area
- Extend the abilities of students who perform at advanced levels
- Provide learning activities that elevate analytical, critical, and creative thinking

## **Editorial Review**

Review

### **Praise for the First Edition:**

*"This thought-provoking, creative, and inspiring book contains chapters by recognized leaders in the field. The authors offer guidelines needed for developing and implementing effective, valuable curriculum for all classrooms."*

(New Horizons for Learning 2008-07-14)

*"As a principal and instructional leader, I have learned far more about effective instruction and powerful unit and lesson design from the Parallel Curriculum Model than anything else. PCM helps teachers not only strengthen their knowledge and pedagogy, but also rediscover a passion for their discipline based on their deeper, more connected understanding. Our students think critically and deeply at a level I have never before witnessed." (Tony Poole, Principal 2008-07-17)*

*"What makes this book unique is its insistence on the development of conceptual understanding of content and its focus on the abilities, interests, and learning preferences of each student. The Parallel Curriculum Model provides a path for educators to move from novice to expert." (H. Lynn Erickson, Educational Consultant 2008-07-24)*

*"Offers a sophisticated yet doable model for curriculum planning. The approach honors the integrity of the disciplines while remaining responsive to the diversity of learners that teachers encounter. This book provides a practical pathway for connecting the content and the kids." (Jay McTighe, Educational Consultant 2008-07-25)*

### About the Author

**Carol Ann Tomlinson**'s career as an educator includes 21 years as a public school teacher. She taught in high school, preschool, and middle school, and worked with heterogeneous classes as well as special classes for students identified as gifted and students with learning difficulties. Her public school career also included 12 years as a program administrator of special services for advanced and struggling learners. She was Virginia's Teacher of the Year in 1974. She is professor of educational leadership, foundations, and policy at the University of Virginia's Curry School of Education; a researcher for the National Research Center on the Gifted and Talented; a codirector of the University of Virginia's Summer Institute on Academic Diversity; and president of the National Association for Gifted Children. Special interests throughout her career have included curriculum and instruction for advanced learners and struggling learners, effective instruction in heterogeneous settings, and bridging the fields of general education and gifted education. She is author of over 100 articles, book chapters, books, and other professional development materials, including *How to Differentiate Instruction in Mixed-Ability Classrooms*, *The Differentiated Classroom: Responding to the Needs of All Learners*, *Leadership for Differentiated Schools and Classrooms*, the facilitator's guide for the video staff development sets called *Differentiating Instruction*, and *At Work in the Differentiated Classroom*, as well as a professional inquiry kit on differentiation. She works throughout the United States and abroad with teachers whose goal is to develop more responsive heterogeneous classrooms.

**Sandra N. Kaplan** has been a teacher and administrator of gifted programs in an urban school district in California. Currently, she is clinical professor in learning and instruction at the University of Southern California's Rossier School of Education. She has authored articles and books on the nature and scope of differentiated curriculum for gifted students. Her primary area of concern is modifying the core and differentiated curriculum to meet the needs of inner-city, urban, gifted learners. She is a past president of the California Association for the Gifted (CAG) and the National Association for Gifted Children (NAGC). She has been nationally recognized for her contributions to gifted education.

**Joseph S. Renzulli** is professor of educational psychology at the University of Connecticut, where he also serves as director of the National Research Center on the Gifted and Talented. His research has focused on the identification and development of creativity and giftedness in young people and on organizational models and curricular strategies for total school improvement. A focus of his work has been on applying the strategies of gifted education to the improvement of learning for all students. He is a fellow in the American Psychological Association and was a consultant to the White House Task Force on Education of the Gifted and Talented. He was recently designated a Board of Trustees Distinguished Professor at the University of Connecticut. Although he has obtained more than \$20 million in research grants, he lists as his proudest professional accomplishments the UConn Mentor Connection program for gifted young students and the summer Confratute program at UConn, which began in 1978 and has served thousands of teachers and administrators from around the world.

**Jeanne H. Purcell** is the consultant to the Connecticut State Department of Education for gifted and talented education. She is also director of UConn Mentor Connection, a nationally recognized summer mentorship program for talented teenagers that is part of the NEAG Center for Talent Development at the University of Connecticut. Prior to her work at the State Department of Connecticut, she was an administrator for Rocky Hill Public Schools (CT); a program specialist with the National Research Center on the Gifted and Talented, where she worked collaboratively with other researchers on national issues related to high-achieving young people; an instructor of Teaching the Talented, a graduate-level program in gifted education; and a staff developer to school districts across the country and Canada. She has been an English teacher, community service coordinator, and teacher of the gifted, K-12, for 18 years in Connecticut school districts and has published many articles that have appeared in *Educational Leadership*, *Gifted Child Quarterly*, *Roepers Review*, *Educational and Psychological Measurement*, National Association of Secondary School Principals' *Bulletin*, *Our Children: The National PTA Magazine*, *Parenting for High Potential*, and *Journal for the Education of the Gifted*. She is active in the National Association for Gifted Children (NAGC) and serves on the Awards Committee and the Curriculum Committee of NAGC, for which she is the co-chair for the annual Curriculum Awards Competition.

**Jann Leppien** served as a gifted and talented coordinator in Montana prior to attending the University of Connecticut, where she earned her doctorate in gifted education and worked as a research assistant at the National Research Center for the Gifted and Talented. She has been a teacher for 24 years, spending 14 of those years working as a classroom teacher, enrichment specialist, and coordinator of the Schoolwide Enrichment Model in Montana. She is past president of the Montana Association for Gifted and Talented Education. Currently, she is an associate professor in the School of Education at the University of Great Falls in Montana. Leppien teaches graduate and undergraduate courses in gifted education, educational research, curriculum and assessment, creativity, and methods courses in math, science, and social studies. Her research interests include teacher collaboration, curriculum design, underachievement, and planning instruction for advanced learners. Leppien works as a consultant to teachers in the field of gifted education and as a national trainer for the Talents Unlimited Program. She is coauthor of *The Multiple Menu Model: A Parallel Guide for Developing Differentiated Curriculum*. She is active in the National Association for Gifted Children (NAGC), serving as a board member and newsletter editor of the Curriculum Division, and a board member

of the Association for the Education of Gifted Underachieving Students.

**Deborah E. Burns** began her teaching career in 1973 as a Title I reading and mathematics teacher in a rural K-8 school in Michigan. She has worked as a K-8 classroom teacher, as a middle school language arts specialist, and as a program coordinator for a seven-district consortium. She has taught in preschool, summer, and Saturday programs, in resource rooms, a psychiatric ward, an orphanage, and at the university level. She has written grants, professional development modules, journal articles, assessments, program evaluations, curriculum units, and three books. She has also designed and implemented classroom-based research studies and conducted program and teacher evaluations. For the past 15 years, she has been employed by the University of Connecticut's NEAG School of Education as a program director, an assistant professor, a research scientist, associate professor in residence, and most recently in Cheshire as curriculum coordinator for the district. She is an active member of the National Association for Gifted Children (NAGC) and has been a board member for the past five years. She is a member of the Curriculum Division and is co-chair of the annual Curriculum Awards Competition. Burns earned her bachelor's degree in elementary education from Michigan State University in 1973. She pursued her graduate studies at Western Michigan University in clinical reading instruction and received her MEd from Ashland College in 1978 in remedial reading, administration, and supervision. She pursued additional graduate studies at Ohio State University involving administration, special education, and gifted education and received her PhD in educational psychology and gifted education from the University of Connecticut in 1987.

Cindy A. Strickland has been a teacher for twenty-five years and has worked with students of all ages, from kindergarten to master's degree. A member of the ASCD Differentiation Faculty Cadre, Cindy works closely with Carol Ann Tomlinson and has coauthored several books and articles with her. In the past eight years, Cindy's consulting work has taken her to forty-six states, five provinces, and three continents where she has provided workshops on topics relating to differentiation, the Parallel Curriculum Model (PCM), and gifted education.

Cindy's publications include *Staff Development Guide for the Parallel Curriculum*; *The Parallel Curriculum Model*, 2nd edition; *The Parallel Curriculum Model in the Classroom: Applications Across the Content Areas*; and *In Search of the Dream: Designing Schools and Classrooms That Work for High Potential Students from Diverse Cultural Backgrounds*.

Publications in differentiation include *Professional Development for Differentiated Instruction: An ASCD Toolkit*, *Exploring Differentiated Instruction*, *Tools for High-Quality Differentiated Instruction: An ASCD Toolkit*, the ASCD online course *Success with Differentiation*, the book *Differentiation in Practice: A Resource Guide for Differentiating Curriculum, Grades 9–12*, and a unit in the book *Differentiation in Practice: A Resource Guide for Differentiating Curriculum, Grades 5–9*.

**Marcia B. Imbeau** is an associate professor at the University of Arkansas, Fayetteville, where she teaches graduate courses in gifted education and elementary education. She is actively involved with university/public school partnerships and teaches in a local elementary school as a university liaison. Her professional experience includes serving as a field researcher for the National Research Center on the Gifted and Talented, elementary teaching in the regular classroom, teaching in programs for the gifted, and coordinating university-based and Saturday programs for advanced learners.

Imbeau has been a board member for the National Association for Gifted Children and has served as a governor at-large for the Council for Exceptional Children – The Association for the Gifted Division. She is a past president of Arkansans for Gifted and Talented Education, a state organization that supports appropriate instructional services for all students.

Working with special education colleagues, she has coauthored *How to Use Differentiated Instruction With Students with Disabilities in the General Education Classroom* as a service publication for the Council for Exceptional Children. Her most recent publication may be found in *Designing Services and Programs for High-Ability Learners*.

Imbeau is a member of the ASCD's Differentiated Instruction Cadre, which provides support and training to schools interested in improving their efforts to meet the academically diverse learning needs of their students.

## **Users Review**

### **From reader reviews:**

#### **Alonzo Stark:**

Nowadays reading books become more than want or need but also turn into a life style. This reading addiction give you lot of advantages. The benefits you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The details you get based on what kind of reserve you read, if you want attract knowledge just go with training books but if you want really feel happy read one together with theme for entertaining for example comic or novel. The actual *The Parallel Curriculum: A Design to Develop Learner Potential and Challenge Advanced Learners* is kind of publication which is giving the reader erratic experience.

#### **Charles Siegrist:**

Reading a guide can be one of a lot of pastime that everyone in the world loves. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a guide will give you a lot of new data. When you read a publication you will get new information since book is one of various ways to share the information or their idea. Second, reading through a book will make you actually more imaginative. When you reading through a book especially hype book the author will bring that you imagine the story how the figures do it anything. Third, you are able to share your knowledge to other individuals. When you read this *The Parallel Curriculum: A Design to Develop Learner Potential and Challenge Advanced Learners*, you are able to tells your family, friends as well as soon about yours book. Your knowledge can inspire the mediocre, make them reading a guide.

#### **Cheryl Burnett:**

Playing with family within a park, coming to see the marine world or hanging out with close friends is thing that usually you will have done when you have spare time, after that why you don't try factor that really opposite from that. 1 activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love *The Parallel Curriculum: A Design to Develop Learner Potential and Challenge Advanced Learners*, it is possible to enjoy both. It is great combination right, you still need to miss it? What kind of hang type is it? Oh can occur its mind hangout people. What? Still don't understand it, oh come on its called reading friends.

**Lena Robertson:**

Publication is one of source of knowledge. We can add our know-how from it. Not only for students but also native or citizen want book to know the revise information of year to help year. As we know those publications have many advantages. Beside most of us add our knowledge, can bring us to around the world. From the book *The Parallel Curriculum: A Design to Develop Learner Potential and Challenge Advanced Learners* we can consider more advantage. Don't one to be creative people? Being creative person must prefer to read a book. Simply choose the best book that appropriate with your aim. Don't become doubt to change your life with that book *The Parallel Curriculum: A Design to Develop Learner Potential and Challenge Advanced Learners*. You can more appealing than now.
