Editorial Review

About the Author
Moksh Jawa is a high school student living in the heart of Silicon Valley. He fell in love with computer science at a very young age. However, he realized that, even in Silicon Valley, there's a severe lack of computer science education and began teaching AP Computer Science to students at his local high school. Moksh has also developed an online course (http://www.apcs.tv) for APCS and wrote this book so that anyone can get a basic computer science education.

Users Review

From reader reviews:

Michele Anderson:

In this 21st centuries, people become competitive in every single way. By being competitive right now, people have do something to make these people survives, being in the middle of typically the crowded place and notice through surrounding.
