If You Were a Quadrilateral (Math Fun) By Molly Blaisdell

If you were a quadrilateral, you would have four straight sides. You could be a checkerboard, a kite, or a yoga mat. What else could you be if you were a quadrilateral?

Editorial Review

About the Author

Molly Blaisdell has an insatiable curiosity that leads to lots of questions. Her favorite one is "Why"? Honestly, she feels the best children's books are really for everyone. She loves to spin out stories and is the author of 29 children's books, with nine Picture Window Books titles. Molly inspires writers with her weekly blog, Seize the Day. She likes to laugh out loud until she has to take something for the headache. She enjoys yoga, art, reading books and fruit smoothies. Molly grew up in Texas, is the mom of four wonderful children, and currently lives in the wilds of Woodinville, Washington, with her husband, Tim.

I always thought of books like a treasure chest, and the illustrations, like windows to look inside. My mother says, I was born with a pencil in hand...my left hand. I drew before I was able to speak. When I was eight years old, we moved into a new home, a big one. Our hobbies-room in this new home was so white that I had an idea. I decided to make it more colorful and I filled the walls with my characters. The ceiling was the only place that was not touched by my pencils. This was the beginning of my artist's freelance career. Since then, my funny characters have stayed with me everywhere, at grade school first, then at University in Rome where I studied Art and Literature. Now, the characters share the attic where I work, with me and my sweet black dog, Luna.

Users Review

From reader reviews:

Lisa Jennings:

As people who live in often the modest era should be upgrade about what going on or information even knowledge to make them keep up with the era that is certainly always change and move ahead. Some of you maybe can update themselves by reading books. It is a good choice for you personally but the problems coming to an individual is you don't know what kind you should start with. This If You Were a Quadrilateral (Math Fun) is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and wish in this era.

Irma Kellner:
