Landscape Photography Workflow Using Lightroom and Photoshop By Matt Kloskowski

Matt Kloskowski, best-selling author and one of the Photoshop Guys, shares his landscape photography workflow here in his latest book. Matt wrote this for anyone who likes to shoot landscape and outdoor photos and wants to learn some of his proven ways to get the most out of them using Lightroom and Photoshop.

He has included some things you'll want to know upfront, and then goes over each of the things that he personally does to just about every landscape photo he shoots (while the book isn't advanced, it's also not for beginners—it's for users that already know how to use Lightroom and Photoshop). You'll then look at five of the most common types of landscape shots, and Matt shows you his exact workflow for each one. He shows you, quick and easy, each step in his workflow, so that you can spend less time post-processing and more time shooting.
