The Secret Behind Secret Societies : Liberation of the Planet in the 21st Century By Jon Rappoport

The way of the secret society is a way of life. At its root, it is not grinning skulls and sputtering candles in dark rooms. It is not that provincial. The secret society reflects one invisible tradition that has existed on Earth for a hundred thousand years. It is the main Way that people have lived on this planet. Excerpt from Introduction There is another way, another tradition, more invisible, more powerful. This book is about these two avenues. It is amazing, at this late date, that so many people think power is merely a cake of clay that six billion of us are beating at with hammers. It is astonishing that so many people think power is a mound of lumps and dust that six billion of us are fighting over. Power has been taken by very well-run organizations. Major power. On the other side of the coin, there is a growing crowd that thinks we must invoke fire-eating lizards or Satan to explain how power has been stolen from us. This is a book about the organizations that have carted off something very vital in the middle of the night and how to get it back. More than that, it is about the exact methods used to unhook us from all that we are. Excerpt There are nine official choirs of angels. For each of these types, we have various artistic depictions. The nine choirs are divided into three groups, each of which has three sub-types. The main branches of angels are the Counsellors, the Governors, and the Messengers. Under the Counsellors are the Seraphim, Cherubim, and Thrones. The Governors include Dominions, Powers, and Virtues. The Messengers contain the Principalities, Archangels and Angels. Each of these nine groups has its own named leader, style of dress, and symbols. The Greek and Latin Fathers of the Church, eight of them, figure very prominently in Christian art . . . I find 10 symbols for these men. As for the Church itself, symbols abound. The ark, the ship, the ark of the covenant, the rock, the candelabra, wheat and tares, the mustard seed, and so on. I have counted 20 symbols. Furthermore, through displayed art, there is an ingenious typing of stories within the Church, in which a key tale is not only pictorialized, but also symbolized by showing other versions of it. For example, the specific type of story known as The Epiphany might be referred to by art showing the visit of the Queen of Sheba to King Solomon not a Christian adventure at all or by the non-Christian Abner coming to see David, King of the Hebrews, or by Joseph s Hebrew brothers bowing down to him in Egypt. The Church holds that the real story behind all of these is: the Magi coming to see the

Infant Lord. In Church art, you would see all of these tales depicted and all but one, the Real One, would have a symbolic meaning. How many such official archetypes of Church stories exist? Well, there is The Annunciation, The Incarnation, The Nativity, The Presentation, The Holy Innocents, The Holy Family in Egypt, The Return From Egypt, St. John the Baptist, Our Lord s Baptism, The Temptation, The Sermon on the Mount, The Raising of Lazarus, The Transfiguration, The Triumphal Entry, Our Lord Weeps Over Jerusalem, Cleansing the Temple, The Last Supper, The Traitor Revealed, Our Lord in Gethsemane, The Betrayal, The Accusation before Pilate, The Crowning With Thorns, Our Saviour Mocked, The Scourging, Bearing the Cross, The Sacrifice on Calvary, The Seamless Coat (taken from Jesus by soldiers at the cross), The Pierced Side, The Virgin Mother s Sorrow, the Descent from the Cross, The Entombment, the Descent Into Hell, The Resurrection, The Woman at the Tomb, The Appearance to Mary, The Appearance to the Disciples, Thomas, The Ascension, Pentecost, The Second Coming, the Unbelievers, The Believers, The Church, Holy Baptism, The Holy Eucharist.

...investigate[s] both current and historic factors in how controlling economic forces, governments and institutions seek to maintain power in society. -- *Nels J. Oas, Ph.D.*

From the Back Cover

In a stunning 30-year investigation, Jon Rappoport uncovers the basic formula of all groups which seek to control individuals and civilizations. And then he reveals an invisible tradition which has existed on this planet for 10,000 years. A tradition which can free us now from our personal limitations. Here is the work that is being called the first great book of the 21st century.

Excerpt. © Reprinted by permission. All rights reserved.

[from the Introduction] The way of the secret society is a way of life. At its root, it is not grinning skulls and sputtering candles in dark rooms. It is not that provincial.

The secret society reflects one invisible tradition that has existed on Earth for a hundred thousand years. It is the main Way that people have lived on this planet.

There is another way, another tradition, more invisible, more powerful. This book is about these two avenues.

It is amazing, at this late date, that so many people think power is merely a cake of clay that six billion of us are beating at with hammers. It is astonishing that so many people think power is a mound of lumps and dust that six billion of us are fighting over.

Power has been taken by very well-run organizations. Major power.

On the other side of the coin, there is a growing crowd that thinks we must invoke fire-eating lizards or Satan to explain how power has been stolen from us.

This is a book about the organizations that have carted off something very vital in the middle of the night - and how to get it back. More than that, it is about the exact methods used to unhook us from all that we are.

I have done enough excavation to expose the central ruse, to show two invisible traditions of history. I have gotten into the shiny stainless steel vault in the big bank, looked around, and pointed out the obvious. And then after that I have refused to budge.

I believe we are grappling, as if in a dream, with the layers of anesthetic that surround the core of our being. This book is a search for ... what? A platform from which to view the place in ourselves which could revolutionize the future.

This search is not new, and we have all been over significant ground before. But we turn away, we demean ourselves, we fabricate existence and lessen its meaning. We pay allegiance to myths and gods, we accept a shrunken view of history. But in history are veins of master substance, as it were, that can lead us back to ourselves in a new way.

The style of this book is not to set out, like file cabinets, a precise robot-march of facts which ultimately spell out a hypothesis. I rather take you along on my own adventure of discovery, because I want you to see and feel something, not merely make notes in the machine-part of the mind.

These days, the terms cult, secret society, and religion are all so loaded that their meanings are melting down. I use cult and secret society to mean: organized groups which harbor a hidden agenda whose purpose is to dominate and control others. This agenda doesn't rule out the existence of a merry public face. In fact, a cult may be doing good in one sphere while destroying life and limb on another front.

In this book, religion means a group which has a hierarchical power structure leading up to an invisible God. Naturally the God favors the religion which worships Him. Otherwise, why bother? Most religions are secret societies. They have an agenda which involves controlling their devotees, all their charity-work notwithstanding.

Historically, people seek out secret societies and religions and join them to gain freedom from pain and turmoil. People also join because they are forced to. For example, the country they live in leaves no choice. Such was the case in medieval Europe, where the Roman Catholic Church held the wand of dominance. But there is another factor. The popular term for it these days is mind control. It used to be brainwashing, hypnotism. I will discuss that aspect at length, in an unusual way.

When I use only the first name of a person, that name is fictitious. The reason is the same in all such cases: to ensure privacy. This book can offer much evidence to support its conclusions, but it cannot rest on absolute proof. Because of the nature of the subject, I have had to rely, in certain crucial situations, on the testimony of anonymous sources. I have also, as I say, chosen to rely on my personal experience, because the story that will now unfold is empty without it.

Users Review

From reader reviews:

Shea Cross:

The book *The Secret Behind Secret Societies : Liberation of the Planet in the 21st Century* can give more knowledge and information about everything you want. Why then must we leave a good thing like a book *The Secret Behind Secret Societies : Liberation of the Planet in the 21st Century*? Several of you have a different opinion about guide.
