Editorial Review

Review

"This is an update of a comprehensive reference and resource for physicians who include perioperative TEE in their clinical practice. It nicely updates the previous edition with new developments in the field and an expanded focus on increasingly common situations in which TEE is employed. While the latter is certainly not the primary focus of the book, the discussion of the role of perioperative TEE outside of cardiac surgery is unique and reflects the growing role of this important diagnostic and monitoring technique. This edition's generous use of color illustrations distinguishes it from similar books and increases its usefulness. This excellent resource would be a worthy addition to the reference library of any physician who commonly uses TEE in the perioperative setting."

About the Author

André Y. Denault, M.D., Ph.D. received his medical degree from the Université de Montréal, Canada. He completed his training in Internal Medicine at McGill University, Montreal; Critical Care at the Presbyterian-University Hospital, Pittsburgh, USA; and Anesthesiology at the Université de Montréal. Dr. Denault now works at the Montreal Heart Institute as a Cardiac Anesthesiologist and at the Centre Hospitalier de l'Université de Montréal in critical care. He is an Associate Professor of Anesthesiology at the Université de Montréal and Clinical Scientist of the Fonds de la recherche en santé du Québec, in Montreal, Canada.

Pierre Couture, M.D. received his medical degree from the Université de Montréal, Canada. He is an Anesthesiologist at the Montreal Heart Institute and Associate Professor of Anesthesiology at the Université de Montréal.

Annette Vegas, M.D. received her medical degree from McGill University, Montreal, Canada. She is a Staff Anesthesiologist and Director of Perioperative Transesophageal Echocardiography (TEE) at Toronto General Hospital, Canada, with interests in cardiac anesthesia and TEE education.

Jean Buithieu, M.D. received his medical degree from the Université de Montréal, Canada, and completed his Internal Medicine and Cardiology and Vascular Medicine training at the Mayo Graduate School of Medicine. He has been Director of Echocardiography and Non-invasive Cardiology at the McGill University Health Center in Montreal since 2001. His interests include cardiac imaging and peripheral vascular diseases.

Jean-Claude Tardif, M.D. received his medical degree from the Université de Montréal, Canada. He is a Cardiologist and the Director of the Research Center at the Montreal Heart Institute. He is also Professor of Medicine and holds the endowed Pfizer Research Chair in Atherosclerosis at the Université de Montréal. Dr. Tardif is the Scientific Director of the Montreal Heart Institute Coordinating Center and of the Canadian Atherosclerosis Imaging Network.

Users Review

From reader reviews:

Jonathan Nelson:

Hey guys, do you wish to find a new book you just read? Maybe the book with the headline Transesophageal Echocardiography Multimedia Manual: A Perioperative Transdisciplinary Approach suitable to you? Typically the book was written by a well-known writer in this era. The book titled Transesophageal Echocardiography Multimedia Manual: A Perioperative Transdisciplinary Approach is the main of several books in which everyone reads now. This book was inspired many men and women in the world. When you read this e-book you will enter the new shape that you ever know prior to. The author explained their plan in the simple way, and so all of people can easily understand the core of this book. This book will give you a wide range of information about this world now. So you can see the represented of the world in this particular book.

Gary Flint:

The e-book titled Transesophageal Echocardiography Multimedia Manual: A Perioperative Transdisciplinary Approach is the reserve that recommended to you you just read. You can see the quality of the e-book content that will be shown to you. The language that author use to explained their way of doing something is easily to understand. The article author was did a lot of analysis when write the book, hence the information that they share for your requirements is absolutely accurate. You also could get the e-book of Transesophageal Echocardiography Multimedia Manual: A Perioperative Transdisciplinary Approach from the publisher to make you much more enjoy free time.

Richard Redd:

Are you kind of hectic person, only have 10 or perhaps 15 minute in your day time to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short space of time to read it because all this time you only find publication that need more time to be read. Transesophageal Echocardiography Multimedia Manual: A Perioperative Transdisciplinary Approach can be your answer as it can be read by you who have those short time problems.

Bobby Hall:

Reading a book to get new life style in this season; every people loves to study a book. When you study a book you can get a large amount of benefit.
