Reality Shifts: When Consciousness Changes the Physical World By Cynthia Sue Larson

Have you noticed things mysteriously move around? Keys don't stay put, wallets transport to different places, and socks go missing from the laundry. We observe reality shifts when things appear, disappear, transform or transport and when we experience changes in time. Reality shifts range from the sublime (missing socks and synchronicity) to completely astonishing (the dead seen alive again; objects appearing out of thin air; spontaneous remission; traveling far in a very short time). Learn how to live lucidly to create a life you love, positively influence the future and the past, and transform sabotage into strength.

Editorial Review

Review

"Reality Shifts is truly an amazing book that takes the reader on a magical ride to enchant and revitalize the way we see life, reminding us that anything is possible. This is one of those books that I will definitely read again and again to fully absorb all that it has to offer." -- *New Consciousness Review*

From the Inside Flap

"Ever wondered where that missing sock went when you last searched the clothes dryer? Thought about why those keys you so carefully tucked into your jacket pocket suddenly disappeared only to be found underneath the cushion of your favorite television sofa? If so then you have experienced what Cynthia Larson calls a Reality Shift. In her book of that title subtitled *When Consciousness Changes the Physical World*, she explains in clear and unambiguous language just what these reality shifts are, why they occur, and how they can be used to influence and change your life for the better. Larson even goes into how the latest ideas from quantum physics can help us understand these shifts and most importantly believe in them as part of our reality, not just our imagination. No, Martha, you are not going crazy, just witnessing the reality shift around you. I recommend this book for its clarity and for its message of hope. Readers will be encouraged to enjoy reality shifts both literally and in actuality-when they occur-and will be taught how to make them happen more often." -- **Fred Alan Wolf**, Ph.D., National Book Award-winning author of *Taking the Quantum Leap* and many other books, including *Dr. Quantum's Little Book of Big Ideas*, and *The Yoga of Time Travel*

"In REALITY SHIFTS, Cynthia Larson helps restore a sense of majesty and wonder to our everyday world. If you think science has explained away the magic of existence, you need seriously to read this book." --**Larry Dossey**, M.D., author of *Power of Premonitions*, *Reinventing Medicine*, and many more

"Modern science has now addressed the problem of consciousness. We each experience consciousness every day, in some of the myriad and fascinating ways described in REALITY SHIFTS. But no one yet quite understands why this is so. Speculations, theories and experiments from quantum science have now been entered into the debate which suggest that our world is far more mystical, complex, interactive and even humorous than the sterile, mechanistic dogma of classical scientific thought. Read, enjoy, be amazed, ponder REALITY SHIFTS." -- **Edgar Mitchell**, Sc.D., author *Psychic Exploration*, *The Way of the Explorer*, Institute of Noetic Sciences Founder, Apollo 14 Astronaut, Apollo 14

From the Back Cover

Something extraordinary is happening...

and the closer you look, the more amazing it gets

Have you noticed things move around mysteriously? Keys don't stay put, wallets transport to different places, and socks go missing from the laundry. We observe reality shifts when things appear, disappear, transform or transport and when we experience changes in time. Reality shifts range from the enigmatic (missing socks and synchronicity) to the completely astonishing and mystifying (the dead seen alive again; objects appearing out of thin air; spontaneous remissions; traveling far in a very short time). Read Reality Shifts and learn how you can:

- Live lucidly to create a life you love
- Positively influence the future & past

- Transform sabotaging beliefs into strength

"Cynthia Sue Larson helps restore a sense of majesty and wonder to our everyday world. If you think science has explained away the magic of existence, you need seriously to read this book." -- Larry Dossey, M.D.

"I recommend this book for its clarity and its message of hope." -- Fred Alan Wolf, Ph.D.

"Read, enjoy, be amazed, ponder REALITY SHIFTS." -- Edgar Mitchell, D.Sc.

Users Review

From reader reviews:

Terry Crabtree:

The reason? Because this Reality Shifts: When Consciousness Changes the Physical World is an unordinary book that the inside of the publication waiting for you to snap the idea but latter it will surprise you with the secret this inside. Reading this book next to it was fantastic author who have write the book in such remarkable way makes the content within easier to understand, entertaining approach but still convey the meaning fully.
