Humans: The Untold Story of Adam and Eve and their Descendants (Mjomba and the Evil Ghost) (Volume 2) By Joseph Marie Luguya

This is Volume Two of "Humans, the Untold Story of Adam and Eve and their Descendants". "Humans" is riveting theology-fiction in which Christian Mjomba, a student of philosophy and theology with a runaway imagination, is determined to turn out a winning theological thesis. He is tempted to employ the devil, the Father of Lies who masquerades as the Angel of Light, as his mouthpiece for expounding on the Church's dogmas and he falls for bait! He imagines that, if he succeeds in bringing this off, he will effectively make Diabolos work for the salvation of souls instead of their damnation! And for that, unbeknownst to him, he becomes a marked man. And yes, incredibly, Mjomba succeeds in tricking Beelzebub into working against his own interests and helping him craft a thesis that looks like it is a definite winner! But, brilliant as that accomplishment is, is it really worth the price that is exacted by the Ruler of the Underworld and has to be paid by the unwitting Mjomba? THE COLUMBIA REVIEW OF BOOKS & FILM: Humans, The Untold Story of Adam and Eve and their Descendants, by Joseph M. Luguya creates a dramatic confrontation between a virtuous young scholar and the most malevolent character of all, delivering an extensive, all-encompassing confrontation that becomes a metaphor for the very core of human existence. This thought-provoking, sprawling novel explores unresolved issues of faith and spirituality while the leading character valiantly defends all that he holds dear in the struggle between good and evil, life and death, and the opposing forces of divine creation. Readers will be enticed to contemplate the most fundamental questions of human existence and come away with a deeper understanding of both differences and commonalities that define us.
