Sencha Architect App Development By Loiane Groner

In Detail

Sencha Architect is a visual app builder that empowers a developer (and a development team) to design, develop, and deploy apps from a single and integrated environment. It also provides support for Ext JS and Sencha Touch development.

Sencha Architect App Development is a practical, hands-on guide that will teach you how to develop a complete application with Ext JS and Sencha Touch. You will learn everything from creating the project, including creating the models, views, controllers and stores, to the build to production. Along the way, this book also highlights the Sencha Architect features that will help you to improve your productivity.

Sencha Architect App Development starts by describing Sencha Architect, the Toolbox, Project Inspector, Confi Panel, Toolbar, the Canvas: Design View, and Code Editor.

You will then learn how to develop a complete application with Ext JS using the MVC architecture, and also how to integrate Sencha Architect with server side code such as PHP and MySQL. You will also learn how to develop a complete application with Sencha Touch, and how to integrate Sencha Architect with PhoneGap (a third-party mobile open source library).

At the end of the book, you will be given some tips and tricks that will help your development even more, and you will also learn how to build, publish, and package an application natively using Sencha Command and Sencha Architect.

Approach

A standard tutorial-based approach for using Sencha Architect to develop applications in Ext JS and Sencha Touch.

Who this book is for

Sencha Architect App Development is for Ext JS and Sencha Touch developers

that are looking to improve their productivity by using Sencha Architect for app development. Basic knowledge of Ext JS and Sencha Touch is required.

Editorial Review

About the Author

Loiane Groner

Loiane Groner lives in São Paulo, Brazil and has over 8 years of software development experience. While at university, she demonstrated great interest in IT. She worked as a teaching assistant for 2 and a half years specialising in teaching algorithms, data structures, and computing theory. She represented her university at the ACM International Collegiate Programming Contest, Brazilian Finals (South America Regionals), and also worked as Student Delegate of SBC (Brazilian Computing Society) for 2 years. She won a merit award in her senior year for being one of the top three students with the best GPAs in the Computer Science department and also graduated with honors.

She has already worked at multinational companies, such as IBM. Her areas of expertise include Java SE, Java EE, and also Sencha technologies (Ext JS and Sencha Touch). Nowadays, she is working as Software Development Manager at a financial institution, where she manages overseas solutions. She also works as an independent Sencha consultant and coach.

She has also authored books such as ExtJS 4 First Look and Mastering JS for Packt Publishing.

She is passionate about Sencha and Java, and is the CampinasJUG (Campinas Java Users Group) leader and ESJUG (Espírito Santo Java Users Group) coordinator, both Brazilian JUGs.

She also contributes to the software development community through her blogs: <http://loianegroner.com> (English) and <http://loiane.com> (Portuguese-BR), where she writes about IT careers, Ext JS, Sencha Touch, Spring Framework, and general development notes, and also publishes screencasts.

Users Review

From reader reviews:

Shirley Gilliam:

What do you concentrate on book? It is just for students as they are still students or the item for all people in the world, what the best subject for that? Simply you can be answered for that question above. Every person has various personality and hobby per other. Don't to be pressured someone or something that they don't want do that. You must know how great and also important the book Sencha Architect App Development. All type of book can you see on many options. You can look for the internet sources or other social media.

Denice Cooke:

This Sencha Architect App Development book is just not ordinary book, you have after that it the world is in your hands. The benefit you have by reading this book will be information inside this publication incredible fresh, you will get info which is getting deeper you actually read a lot of information you will get. This kind of Sencha Architect App Development without we realize teach the one who reading through it become

critical in considering and analyzing. Don't be worry Sencha Architect App Development can bring any time you are and not make your handbag space or bookshelves' become full because you can have it with your lovely laptop even telephone. This Sencha Architect App Development having great arrangement in word as well as layout, so you will not really feel uninterested in reading.

Gloria Taylor:

Information is provisions for folks to get better life, information nowadays can get by anyone from everywhere. The information can be a know-how or any news even an issue. What people must be consider if those information which is within the former life are hard to be find than now's taking seriously which one works to believe or which one often the resource are convinced. If you find the unstable resource then you have it as your main information there will be huge disadvantage for you. All those possibilities will not happen in you if you take Sencha Architect App Development as the daily resource information.

Karen Rodriguez:

Spent a free the perfect time to be fun activity to do! A lot of people spent their sparetime with their family, or their friends. Usually they carrying out activity like watching television, gonna beach, or picnic from the park. They actually doing same task every week. Do you feel it? Will you something different to fill your free time/ holiday? Could be reading a book can be option to fill your cost-free time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to try look for book, may be the reserve untitled Sencha Architect App Development can be great book to read. May be it may be best activity to you.
