**Social Psychology** By John D. DeLamater, Daniel J. Myers, Jessica L. Collett

Written by well-known sociologists John D. DeLamater, Daniel J. Myers, and Jessica L. Collett, this fully revised and updated edition of *Social Psychology* is a highly accessible and engaging exploration of the question “what is it that makes us who we are?” Grounded in the latest contemporary research, the book also explains the methods in which social psychologists investigate human behavior in a social context and the theoretical perspectives that ground the discipline.

With hundreds of real-world examples, figures, tables, and photographs, the text explores such topics as self, attitudes, social influence, emotions, interpersonal attraction and relationships, collective behavior, and personality. Each chapter is designed to be a self-contained unit for ease of use in any classroom, beginning with focal questions that establish the issues being discussed and ending with a summary of key points, a list of key terms and concepts, and critical thinking questions.

## **Users Review**

**From reader reviews:**

**Michael Vu:**

The book Social Psychology can give more knowledge and information about everything you want. Exactly why must we leave a very important thing like a book Social Psychology? A number of you have a different opinion about guide. But one aim this book can give many data for us. It is absolutely right. Right now, try to closer using your book. Knowledge or data that you take for that, you can give for each other; you could

share all of these. Book Social Psychology has simple shape however, you know: it has great and big function for you. You can search the enormous world by wide open and read a guide. So it is very wonderful.

**Joseph Tucker:**

What do you regarding book? It is not important with you? Or just adding material when you need something to explain what the one you have problem? How about your extra time? Or are you busy individual? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have free time? What did you do? Everybody has many questions above. They must answer that question since just their can do that will. It said that about book. Book is familiar on every person. Yes, it is correct. Because start from on pre-school until university need that Social Psychology to read.

**Luis Herrick:**

The reason why? Because this Social Psychology is an unordinary book that the inside of the guide waiting for you to snap the idea but latter it will jolt you with the secret this inside. Reading this book adjacent to it was fantastic author who write the book in such incredible way makes the content inside easier to understand, entertaining means but still convey the meaning totally. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This phenomenal book will give you a lot of advantages than the other book include such as help improving your talent and your critical thinking approach. So , still want to delay having that book? If I had been you I will go to the guide store hurriedly.

**Thomas O'Brien:**

That reserve can make you to feel relax. This kind of book Social Psychology was multi-colored and of course has pictures around. As we know that book Social Psychology has many kinds or genre. Start from kids until young adults. For example Naruto or Investigator Conan you can read and believe you are the character on there. Therefore not at all of book are usually make you bored, any it offers up you feel happy, fun and relax. Try to choose the best book for you and try to like reading which.
