Editorial Review

Review

"...a well-organized handbook for academic, special and libraries serving researchers who are working with all types of fibers." -- *E-Streams*

"... should be considered a new book rather than just an update of the first edition." -- *JTN Monthly*

"...this hefty volume offers a world of surprises in its compass, and is well worth the money to mill labs. -- *Textile Asia*

"...would make a very good addition to the reference section of a fiber or polymer library. -- *Polymer News*

"...contains the most important developments in fiber science during the last decade." -- *Colourage*
