Editorial Review

From Library Journal

In his historical-archaeological study, Yamauchi (*Stones and the Scriptures* , Baker Bk. House, 1981) attempts to explain Persian history and culture in the context of biblical accounts, enlarging upon this connection in brief discussions of numerous topics surrounding Persian rulers, seats of government, and religion. The brevity of the discussions and summary presentations of controversial and contradictory theories may prove frustrating for the serious student of Persian history. Still, the book contains many useful elements: a broad survey of the literature and recent archaeological findings; indexes including biblical issues; pertinent maps, diagrams, and illustrations; a large, select bibliography; and meticulous documentation. A valuable basic biblical reference tool or a point of departure for more advanced historical research.
