Threat Vector (A Jack Ryan Novel Book 13) By Tom Clancy, Mark Greaney

For Jack Ryan, Jr., and his comrades at the covert organization known as The Campus, the fight against America's enemies is never over. But the danger has just hit home in a way they never expected...

The Campus has been discovered. And whoever knows they exist knows they can be destroyed. Meanwhile, President Jack Ryan has been swept back into the Oval Office—and his wisdom and courage are needed more desperately than ever.

Internal political and economic strife has pushed the leadership of China to the edge of disaster. And those who wish to consolidate their power are using the opportunity to strike at long-desired Taiwan, as well as the Americans who have protected the tiny nation.

Now, as two of the world's superpowers move ever closer to a final confrontation, President Ryan must use the only wild card he has left—The Campus. But with their existence about to be revealed, they might not even have a chance to enter the battle before the world is consumed by war.

Editorial Review

Review

"Each plotline comes to us mainly in a series of tightly written action scenes...as visual as anything on a movie screen, with the added enticement of crisp, accurate and hard driving prose." --*Chicago Tribune*

"Hard to put down." --*Pittsburgh Post-Gazette*

About the Author

Thirty years ago, Tom Clancy was a Maryland insurance broker with a passion for naval history. Years before, he had been an English major at Baltimore's Loyola College and had always dreamed of writing a novel. His first effort, *The Hunt for Red October*, sold briskly as a result of rave reviews, then catapulted onto the New York Times bestseller list after President Reagan pronounced it "the perfect yarn." Since then Clancy has established himself as an undisputed master at blending exceptional realism and authenticity, intricate plotting, and razor-sharp suspense.

Mark Greaney has a degree in international relations and political science and is pursuing his master's in intelligence studies with a concentration in criminal intelligence. In his research for the Gray Man novels, he traveled to seven countries and trained alongside military and law enforcement in the use of firearms, battlefield medicine, and close-range combat tactics.
