## Cross-Word Modeling for Arabic Speech Recognition (SpringerBriefs in Electrical and Computer Engineering) By Dia AbuZeina, Moustafa Elshafei

Cross-Word Modeling for Arabic Speech Recognition utilizes phonological rules in order to model the cross-word problem, a merging of adjacent words in speech caused by continuous speech, to enhance the performance of continuous speech recognition systems. The author aims to provide an understanding of the cross-word problem and how it can be avoided, specifically focusing on Arabic phonology using an HMM-based classifier.

## **Editorial Review**

From the Back Cover

"Cross-Word Modeling for Arabic Speech Recognition" utilizes phonological rules in order to model the cross-word problem, a merging of adjacent words in speech caused by continuous speech, to enhance the performance of continuous speech recognition systems. The author aims to provide an understanding of the cross-word problem and how it can be avoided, specifically focusing on Arabic phonology using an HMM-based classifier.

## **Users Review**

**From reader reviews:**

**Lawrence Gregory:**

This book untitled Cross-Word Modeling for Arabic Speech Recognition (SpringerBriefs in Electrical and Computer Engineering) to be one of several books which best seller in this year, that's because when you read this publication you can get a lot of benefit upon it. You will easily to buy this book in the book shop or you can order it by way of online. The publisher on this book sells the e-book too. It makes you quicker to read this book, since you can read this book in your Mobile phone. So there is no reason to you to past this guide from your list.

**Ramon Hudson:**

The e-book with title Cross-Word Modeling for Arabic Speech Recognition (SpringerBriefs in Electrical and Computer Engineering) contains a lot of information that you can understand it. You can get a lot of gain after read this book. This particular book exist new know-how the information that exist in this book represented the condition of the world now. That is important to yo7u to be aware of how the improvement of the world. This book will bring you with new era of the globalization. You can read the e-book on your own smart phone, so you can read that anywhere you want.

**Dollie Simmons:**

Reading a book for being new life style in this year; every people loves to go through a book. When you study a book you can get a lot of benefit. When you read ebooks, you can improve your knowledge, mainly because book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your study, you can read education books, but if you want to entertain yourself you can read a fiction books, this sort of us novel, comics, along with soon. The Cross-Word Modeling for Arabic Speech Recognition (SpringerBriefs in Electrical and Computer Engineering) offer you a new experience in examining a book.

**Bernard Taylor:**

Don't be worry when you are afraid that this book will filled the space in your house, you will get it in e-book approach, more simple and reachable. That Cross-Word Modeling for Arabic Speech Recognition (SpringerBriefs in Electrical and Computer Engineering) can give you a lot of buddies because by you investigating this one book you have point that they don't and make you actually more like an interesting person. This particular book can be one of one step for you to get success. This reserve offer you information that maybe your friend doesn't know, by knowing more than additional make you to be great folks. So , why hesitate? Let me have Cross-Word Modeling for Arabic Speech Recognition (SpringerBriefs in Electrical and Computer Engineering).
