Terra Formars, Vol. 7 By Yu Sasuga

In the late 26th century, overpopulation on Earth is reaching the breaking point, and humanity must find new frontiers. The terraforming of Mars has taken centuries but is now complete. The colonization of Mars by humanity is an epoch-making event, but an unintended side effect of the terraforming process unleashes a horror no one could ever have imagined...

As the situation on Mars intensifies, back on Earth the nations involved convene to negotiate their interests. China makes an offer of a rescue ship, forcing those at the council to choose sides. As the leaders deliberate, the humans on Mars find their conflicts reflecting those back home, as members of the expedition begin to turn on each other. Akari and Michelle make their way back to the rendezvous point, but will they be welcomed or attacked? As always the Terraformers lurk with more surprises in store...
