

Assessment in Health Professions Education

By Steven M. Downing, Rachel Yudkowsky

Assessment in Health Professions Education By Steven M. Downing, Rachel Yudkowsky

Assessment in Health Professions Education provides comprehensive guidance for persons engaged in the teaching and testing of the health professions – medicine, dentistry, nursing, pharmacy and allied fields. Part I of the book provides a user-friendly introduction to assessment fundamentals and their theoretical underpinnings; Part II describes specific assessment methods used in the health professions, with a focus on best practices, assessment challenges, and practical guidelines for the effective implementation of successful assessment programs.

Key features:

- **Comprehensive** – the first text to provide broad, single-source coverage of all aspects of assessment in the health professions.
- **Accessible** – while scholarly and evidence-based, the book is geared towards health professions educators who are not measurement specialists.
- **Thematic** – assessment validity is an organizing theme and provides a conceptual framework throughout the book.
